PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate at GLA University with hands-on experience in full-stack web development. Proficient in React, Node.js, MongoDB, and REST API development. Passionate about building intelligent, user-centric applications with a strong foundation in both frontend and backend technologies.

EDUCATION

B.Tech in Computer Science – GLA University, Mathura	CGPA: 6.93 Expected June 2027
Class XII (Intermediate) – La Martina School, Lakhimpur, UP	69% May 2023
Class X (High School) – La Martina School, Lakhimpur, UP	93% May 2021

TECHNICAL SKILLS

Languages:	Java, JavaScript, HTML5, CSS3
Frontend:	React.js, Responsive UI Design
Backend & Database:	Node.js, Express.js, MongoDB, REST APIs, JWT Authentication
AI / Integrations:	Gemini API, PDF Processing, AI-powered Features
Tools & Platforms:	Git, GitHub, VS Code, Postman
Soft Skills:	Effective Communication, Team Collaboration, Interpersonal Skills, Problem-Solving

INTERNSHIP / TRAINING

Full Stack Developer Trainee W3grads (via GLA University)	Jun 2025 – Jul 2025
- Completed an intensive job-oriented Full Stack Development course under Piyush Khandelwal, Director at W3grads. - Built and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB. - Gained real-world exposure to REST API design, JWT authentication, and startup-style development practices.	

PROJECTS

SmartSheet AI – AI-Powered Learning Platform	React Node.js MongoDB Gemini API
---	---

Tech Stack: React.js, Node.js, MongoDB, Gemini API, JWT

- Developed an AI-powered web app that converts uploaded PDFs into quizzes, flashcards, and summaries using the Gemini API.
- Implemented secure JWT-based user authentication and a document-based AI chat interface for interactive learning.
- Designed a fully responsive full-stack system handling document upload, AI processing, and real-time response rendering.

Urban Bay – Smart Parking Platform	Node.js Express.js MongoDB JS
---	--

Tech Stack: Node.js, Express.js, MongoDB, JWT, HTML, CSS, JavaScript

- Built a real-time full-stack parking spot finder and booking platform with GPS-based location tracking.
- Developed secure and scalable REST APIs using Node.js and Express.js with JWT-based authentication.
- Created a responsive, mobile-friendly UI with HTML, CSS, and JavaScript; managed data efficiently using MongoDB.

CERTIFICATIONS & ACHIEVEMENTS

- Web Development Certification** – Acmegrade in collaboration with Mood Indigo, IIT Bombay (June–July 2024). Gained practical exposure to modern web development tools and industry-standard practices.
- Full Stack Development Training** – W3grads, GLA University (June–July 2025). Completed a job-oriented program covering end-to-end web app development and startup methodologies.
